## Befriending Services

- Face to face befriending service can be offered in the clients home or at our base where we are able to offer a range of activities and social interaction workshops.
- During the covid-19 pandemic we had to put on hold our face-to-face services but managed to adapt the service and offer a phone befriending service.
- Clients who had tech such as iPad's were able to have befriending calls via skype, teams and WhatsApp.
- The befriending service at A & A Services West Midlands has been a success and is widely being accessed, we are proud to offer the face-to-face service at our base location which has many local amenities within arm's reach.
